 TRANSPORT (SCOTLAND) ACT 2005 SECTION 19
 BUILDERS SKIPS (MARKINGS)/(SCOTLAND) REGULATIONS 1986
- East Ayrshire Council are not liable for any injuries or losses sustained as a result of incidents arising from the placing of a skip(s) on the Public Road

EAST AYRSHIRE COUNCIL
ROADS AND TRANSPORTATION

CONDITIONS FOR USE OF BUILDERS' SKIPS

Skips are governed by the following legislation:

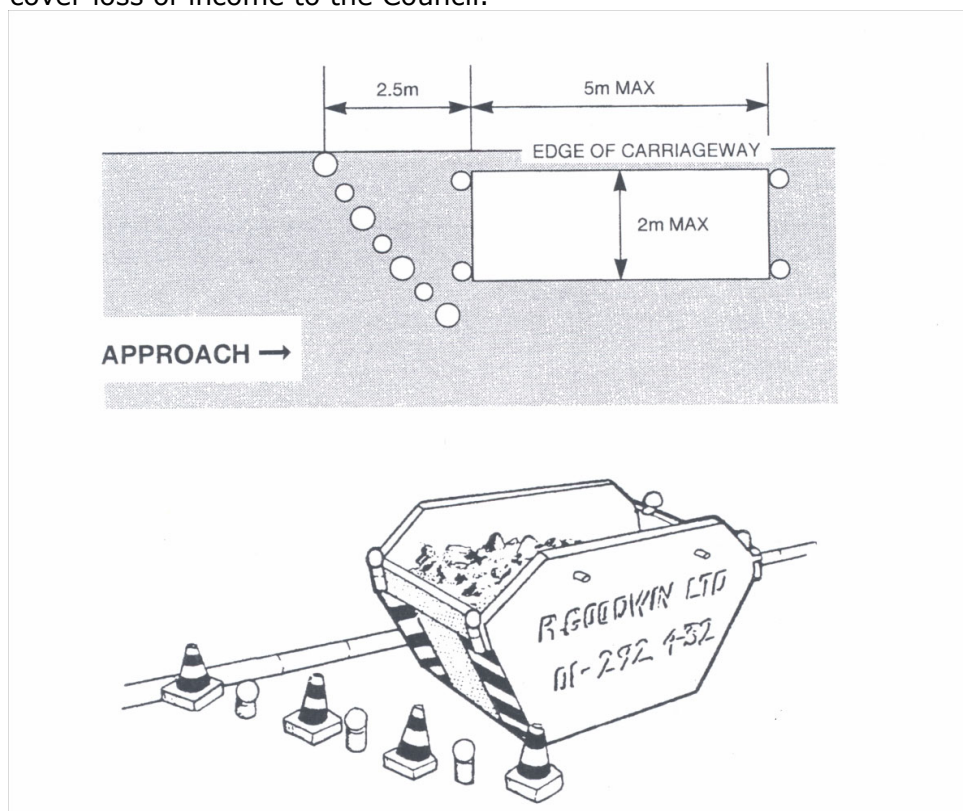

Roads (Scotland) Act 1984, Sections 60, 85 and 86
The Builders' Skips (Markings) (Scotland) Regulations 1986
Transport (Scotland) Act 2005
(Road Traffic Regulation Act 1984, Section 65)

Transporting, placing and guarding

- 1 Bulk containers (skips) for use on the road for the disposal of building materials, etc shall comply with the appropriate Motor Vehicles Construction and Use Regulations.
- 2 Unless approved in writing by the Roads Division skips shall be positioned so that the longer sides are parallel to the edge of the carriageway and as near to the edge of the carriageway as is practicable without impeding surface water drainage of the road nor obstructing access to any manhole, or drainage cover or Public Utility apparatus.
- 3 When more than one skip is on the road at any one time, the skips shall be positioned as closely as possible to each other. Skips should be placed so as not to obstruct access to any premises (unless the consent of the occupier of those premises has been obtained), nor to obstruct the sightlines of vehicles at junctions or bends.
- 4 Each skip shall be clearly and permanently marked with the owners name and telephone number or address and each skip or group of skips shall while on the road be marked (guarded) and lit in accordance with the requirements of Chapter 8 of the Traffic Signs Manual
 - (a) Builders' skips placed or deposited on a road must be fitted with vertical red and yellow fluorescent/reflective markings identical to those prescribed for use on the rear of heavy goods vehicles. The design of the skip markings shall comply with the Builders' skip (Markings) (Scotland) Regulations 1986. The markings shall at all times be kept clean.
 - (b) Each skip shall be guarded by at least 4 traffic cones placed on the carriageway in an oblique line on the approach side of the skip. (Where 2 or more skips are deposited in a row, so that the distance between adjacent skips does not exceed 2 metres, the row shall be guarded as if it were one skip).
 - (c) At night (that is to say, between half an hour after sunset and half an hour before sunrise) a lamp shall be placed against or attached to each corner or the end corners of the row of skips where two or more skips are deposited in a row and the distance between adjacent skips does not exceed 2 metres, and shall also be placed between each cone and the next. Lamps shall comply with the current Traffic Signs Regulations and General Directions (in the 1981 TSRGD, regulation 40).

General use of skips

- 5 No skip shall be used in such a way that any of its contents fall on to the road, or footway or verge. No skip shall contain any hazardous material or any material which is likely to putrefy or otherwise become a nuisance to users of the road.
- 6 Each skip shall be removed for emptying as soon as practicable and in any case no skip shall remain on the road after the period of this permission specified in Form BS3 has expired. Any extension to the approved dates will require a new application.
- 7 After removal the road where the skip or skips have been deposited shall be left in a clean and tidy condition.
- 8 The permit shall be shown, on demand, to any police officer or official of East Ayrshire Roads and Transportation.
- 9 Charges will be levied for occupation of fee generating parking spaces to cover loss of income to the Council.

Notes

- (a) Section 85(2) of the Roads Scotland Act 1984 empowers the Roads Authority to impose additional conditions relating to skip permits. Section 85(3) makes it an offence to use a skip in contravention of the Act and specifies a fine not exceeding £1000.
- (b) Section 86 of the Roads (Scotland) Act 1984 empowers the Roads Authority or a Police Officer to request the removal or repositioning of a skip even though it has been deposited with the Roads Authority's permission. Failure to comply with such a request may lead to the Roads Authority removing the skip and disposing of the skip if not then collected by its owner, and recovering any expenses reasonably incurred under Section 86 of the Act.
- (c) All dimensions shown in the sketch are in metres.
